HERE

The far south of New Zealand has some of the most remote and wildlife-rich landscapes in the country. The Otago Peninsula is famous for marine life, penguins, seals and albatross, and for bird lovers. The drive through the Catlins with a stop at a Curio Bay to see Hector's Dolphins surfing and then to Stewart Island which is a must and will be your best chance to see kiwi in the wild. The Fiordland experiences included here are some of the best with a an overnight cruises on Doubtful Sound and a guided mountain hike. You can add this journey or elements from it to most of our journeys further north.

We recommend slow travel, if you have time, add extra nights or extra stops along the way.
